"Please note that scores give you **insight** into the puppy's personality. It is imperative you work with your breeder for guidance concerning specific puppies. It is not feasible to factor in all variables of a pup's temperament in one aptitude test; nonetheless, this report does provide you a solid understanding of temperament and how that may correspond to your specific needs. It is our mission to give each puppy a voice in their placement **empowering** you to make a powerful and magical match!"

| Chansey is a middle of the road pup. She is outgoing, social, sweet and playful. She works to build a bond with us, enjoys climbing into our laps or laying beside up. She engages in play with us and works to understand our directions. She enjoys spending time with us but will also wonder off and do her own thing, entertaining herself with a toy or just lounge around. She would do well in the majority of households as she is well rounded and adaptable in situations. |            | Charmander is well rounded guy. He is social, outgoing, engaging and playful. He enjoys going outside and exploring. He does well meeting new people and does well in new situations. He has good confidence and works to understand what we want and is eager to please us. He enjoys snuggling up with us and relaxing, climbing into our laps and giving us kisses. Charmander would be great for a family seeking an outgoing guy who is adventurous, engaging and sweet. |            |

| Jigglypuff is an outgoing, social and playful girl. She is confident, and does well during the test and enjoys playing outside or exploring new environments. Jigglypuff enjoys climbing into our laps, being close to us and follow us around, she is our little shadow. She is often front and center for attention. She is playful and enjoys engaging in play with us and her siblings. Jigglypuff would be a good fit for a family seeking a well rounded girl who is outgoing and playful. |            | Lillipup is a sweet and sensitive girl. Lillipup is polite in her approach, she is gentle and tolerant when it comes to touch and being held. She is low prey drive, she doesnt show much interest in toys or chase. She has an independent side, she is often the observer in the group watching her siblings play or wondering off and doing her own thing. | Pikachu is a sweet and sensitive girl. She enjoys interacting with us and our children, she's playful, engaging and outgoing. She enjoys playing with toys, fetch and running around with our kids. She is engaging and works to understand what we want for her. She enjoys being held, cuddled and will climb right into your lap. She's on the sensitive side and may take some time to warm up to new situations/environments but opens up quickly once she's comfortable. She would do well in a family looking for a sweet, sensitive girl who enjoys interacting with them, will enjoys playtime, adventures and cuddles too. |            | Snorlax is a cuddly, laidback guy.
